

Bayou Bartholomew Watershed Nine Element Plan

By

William G. Layher, Ph.D.
Layher BioLogics RTEC, Inc.
7233 Camden Cutoff Road
Pine Bluff, AR 71603

**In cooperation with the Bayou Bartholomew Alliance Technical
Support Group**

June 29, 2005
Fourth Revision August 28, 2005

CONTENTS

Chapter 1 - Watershed Description	1
Location and Physical Setting	1
Landscape and Topography	1
Geomorphology	2
Hydrography	2
Hydrology	3
Groundwater	4
Soils	5
Vegetation	5
Wetlands	6
Fish and Wildlife Resources	7
Demographic and Socioeconomic Characteristics	8
Water Quality	10
Chapter 2 – What Has Been Done	14
Chapter 3 – Future Actions Needed	29
Causes and Sources of Pollution	29
Load Reductions from BMPs and Load Reductions Necessary to Achieve Goals	30
Management Measures Needed to Achieve Goals	30
Technical and Financial Assistance Needed to Achieve Goals	33

Public Participation: Public Education and Outreach	36
Schedule of How to Implement the Plan	37
Milestone Recognition and Re-evaluation Process	41
Measures of Success and Performance	41
Identification of Performance Criteria	42
Establishing Monitoring Requirements to Assess Criteria	42
Project Coordination	43
Literature Cited	44
Appendix I – Fish, Wildlife, and Plants in the Bayou Bartholomew Watershed	50
Amphibians	51
Birds	51
Fishes	54
Invertebrates	55
Mammals	56
Reptiles	56
Plants	57
List of fishes Found at Thirteen Sample Locations in the Bayou Bartholomew Watershed by Layher BioLogics, Inc., through 2004	59
Sensitive Species Known to Occur in the Bayou Bartholomew Watershed	61
Bird Species Observed Along the William (Bill) G. Layher Nature Trail In Pine Bluff, Arkansas	62
Globally Imperiled Mussels Along Bayou Bartholomew	64
Numbers of Species at Known Mussel Beds	65

Numbers of fish Species at Sample Sites	68
Habitat in 400M radius Around Mussel Sample Sites	72
Habitat in 400M radius Around Fish sample Sites	73
Appendix II – Sub-basins in the Bayou Bartholomew Watershed and S.W.A.T. Model Output	74
Bayou Bartholomew Sub-basins and Numeric Identifiers	75
Bayou Bartholomew Watershed Sub-basin Streams and Watershed Areas	76
Percentile Rankings for flow by Sub-basin	78
Percentile Rankings for total phosphorous by sub-basin	79
Percentile Rankings for total nitrogen by sub-basin	80
Percentile Rankings for sediment by sub-basin	81
Sub-basins within percentile ranges for sediment	82
Appendix III – Conservation Practices Installed in the Bayou Bartholomew Watershed	83
Arkansas EQIP Soil Reduction	84
Morehouse Parish, LA EQIP Practices	85
Miscellaneous Conservation Programs	86
Conservation Reserve Program	86
EQIP: Nutrient Management	87
EQIP: Irrigation Management	87
EQIP: Soil Management	88
EQIP: Miscellaneous Practices	88

Relevant Practice Code Descriptions	89
Conservation Practices Installed in Bayou Bartholomew Watershed Sub-basins	91
Appendix IV – ADEQ Water Quality Monitoring Stations	94
ADEQ 2004 303(d) List	95

Acknowledgements

We would like to thank all members of the Bayou Bartholomew Technical Support Group for their assistance in putting together this nine element plan. We especially thank the County Conservation Districts in the Bayou Bartholomew Watershed for their assistance in identifying conservation practices which have been installed and estimates of soil loss prevention for various practices.

Figures related to S.W.A.T. modeling were provided by the University of Arkansas. Information on mussel distribution and fish distribution was courtesy of Winrock International and The Nature Conservancy. We especially thank Jim Wise of ADEQ for his many comments and inputs regarding monitoring data and water quality topics. Jan Boydstun of the Louisiana DEQ provided exceptional comments on the draft version of this document. We also thank Ellen McNulty, ADEQ and Dr. Curtis Merrell, BBA, for their extensive comments.
