Learning about vegetables can be an interesting experience for children. As they are involved in a topic of study about vegetables, they learn about the different parts of vegetables. As they are involved in growing vegetables from seeds, they discover that seeds need water, soil, and light to grow. They will have the opportunity to taste vegetables that may be new to them.

Here are three big ideas about growing vegetables you can help children explore:

- Vegetables have roots, stems/stalks, leaves, seeds.
- We can grow vegetables from seeds
- Vegetables need soil, water and sunlight to grow

Resources

- Check with your local library for the availability of children’s books.
- Children’s books can be purchased online, from school supply catalogs or local bookstores.
- Bean Bag Activity CD or tape by Kimbo can be purchased from school supply catalogs
- Contact the Division of Child Care and Early Childhood Education for the following materials or locate at [www.arkansas.gov/childcare/storymonth.html](http://www.arkansas.gov/childcare/storymonth.html):
  - A Story a Month – June 2002 – *The Carrot Seed* (patterns for storytelling figures)
  - A Story a Month – October 2001 – *Pumpkin, Pumpkin* (patterns for storytelling figures)

Introduction: Finding out What Children Know about Vegetables

Benchmarks: 3.5 Understands that print conveys a message  
5.8 Participates in group discussion

To introduce the topic of “Vegetables” you need to find out what children already know about the topic. This allows you to build on your children’s experiences. It also helps create an interest in the topic. Here’s how to begin.

- Gather the children in a group. Say, “For the next few days we’re going to be learning about vegetables.”
- Write on chart paper, chalkboard or marker board the word “Vegetables.”
- Invite children to tell you things they already know about vegetables. You may have to ask children questions such as, “Can you name some vegetables?” “What is your favorite vegetable to eat?”
- Make a list of all of the things children know about vegetables.
- Review the list with them and say, “You already know a lot of things about vegetables and we’ll find out even more.”
- Keep the list until you have completed the topic of study.

Conclusion: Finding out What Children Have Learned about Vegetables

- Gather the children in a group at the conclusion of the study about vegetables.
- Write on chart paper, chalkboard or marker board, “Things We Learned about Vegetables.”
- Invite children to tell you some things they have learned about vegetables. You may have to ask prompt questions such as “Can you remember what vegetables need to help them grow?”
- Make a list of all the things children learned about vegetables.
- Read the first list you made with the children. Then say, “Here are some new things you found out about vegetables” and read today’s list with the children.
Benchmark: 3.1 Shows enjoyment of books and stories and discussion of them

Book #1: *One Bean* by Anne Rockwell, illustrated by Megan Halsey

First Reading of *One Bean*
- Prepare to read the book, *One Bean*.
- Give each child a dried lima bean to examine and describe. Ask questions such as “How does the bean feel?”
- Collect the beans and tell children they will do an activity with the bean later.
- Show cover; give title, author and illustrator. (Explain that author is the person who writes the book and the illustrator is the person who draws the pictures.)
- Ask children to look at the cover and predict what story is about.
- Read story so all children can see the pictures in the book.
- Follow up with questions such as “Have you ever seen a bean growing?” “What would you do if you were given a bean to plant?” “Have you ever eaten beans?”

Second Reading of *One Bean*
- Show cover, give title, author and illustrator.
- Read the story so all children can see the pictures in the book.
- Follow up the second reading by showing the pictures and inviting children to tell what the boy did to grow the bean.

Third Reading of *One Bean*
- Show cover. Invite children to recall title. Give author and illustrator.
- Read the story so all children can see the pictures in the book.
- Follow up the third reading by involving children in discussing what the bean needed in order to grow: soil, water, sunshine.

Fourth Reading of *One Bean*
- Show cover, give title, author and illustrator.
- Invite children to recall what the bean needed to grow.
- Read the story so all children can see the pictures in the book.
- Follow up the fourth reading by involving children in identifying the parts of the plant: bean/seed (dry bean), stalk, leaves, buds, flowers, and bean pods.

Book #2: *The Carrot Seed* by Ruth Krauss, illustrated by Crockett Johnson

First Reading of *The Carrot Seed*
- Prepare to read the book, *The Carrot Seed*.
- Show cover; give title, author and illustrator. (Explain that author is the person who writes the book and the illustrator is the person who draws the pictures.)
- Ask children to look at the cover and predict what story is about.
- Read the story so all children can see the pictures in the book.
- Follow up with questions such as “Have you ever seen a carrot growing?” Show the next to last page and ask children what they see? Ask, “Where is the carrot?” Help children understand that carrots grow underground, so you can only see the carrot tops. You have to pull the carrot out of the ground. Ask if they have ever seen a carrot as big as the one in the wheelbarrow.

Second Reading of *The Carrot Seed*
- Show cover, give title, author and illustrator.
- Read the story so all children can see the pictures in the book.
Follow up the second reading by asking, “How do you think the little boy felt when his mother, father and brother said that his carrot won’t come up?” “How do you think he felt when his carrot finally came up?”

Third Reading of *The Carrot Seed*
- Show cover. Invite children to recall the title. Give author and illustrator.
- Read the story so all children can see the pictures in the book.
- Follow up the third reading by showing the pictures and asking the children how the little boy grew his carrot seed. (He planted it in the soil/dirt, he pulled up the weeds and he watered it.)

**Book #3: Pumpkin Pumpkin by Jeanne Titherington, author and illustrator**

First Reading of *Pumpkin Pumpkin*
- Prepare to read the book, *Pumpkin Pumpkin*
- Show cover; give title, author and illustrator. (Explain that author is the person who writes the book and the illustrator is the person who draws the pictures.)
- Ask children to look at cover and predict what story is about.
- Read the story so all children can see the pictures in the book.
- Follow up with questions such as, “Have you ever seen a pumpkin growing?” “Have you ever been to a pumpkin patch and picked a pumpkin?” “Have you ever helped carve a pumpkin face?” Encourage children's comments.

Second Reading of *Pumpkin Pumpkin*
- Show cover. Invite children to recall the title. Give author and illustrator.
- Read the story so all children can see the pictures in the book.
- Follow up the second reading by showing the pictures to the children and inviting them to describe what the boy did to grow the pumpkin. Ask children how many pumpkins the boy will be able to grow from the six seeds.

**Additional Books**

- *Eating the Alphabet*, by Lois Ehlert
- *The Gigantic Turnip* by Aleksei Tolstoy, illustrated by Niamh Sharkey
- *Growing Vegetable Soup* by Lois Ehlert
- *It's Pumpkin Time!* by Zoe Hall
- *Peter Rabbit* by Beatrix Potter
- *The Surprise Garden* by Zoe Hall, illustrated by Shari Halpern
- *Too Many Pumpkins* by Linda White
- *Tops and Bottoms* by Janet Stevens
- *Vegetables Go To Bed* by Christopher King, illustrated by Mary Grandpre
Benchmark: 3.1 Shows enjoyment of books and stories and discussion of them

**Storytelling Figures: The Carrot Seed**
- Make either felt or magnetic storytelling figures for the story, *The Carrot Seed*
- Use the storytelling figures to tell the story.
- Explain to the children that the storytelling figures will be in the library/book area for them to use.
- Demonstrate and discuss with the children the correct way to use the storytelling figures.

**Storytelling Figures: Pumpkin Pumpkin**
- Make either felt or magnetic storytelling figures for the story, *Pumpkin Pumpkin*
- Use the storytelling figures to tell the story.
- Explain to the children that the storytelling figures will be in the library/book area for them to use.
- Demonstrate and discuss with the children the correct way to use the storytelling figures.

**Benchmark: 5.1 Demonstrates phonological awareness (hearing and recognizing the sounds of language)**

**5.5 Participates in songs, finger plays, rhyming activities and games**

- Make illustrated rhyme chart for the following nursery rhyme:

  **Peter, Peter, Pumpkin Eater**

  Peter, Peter, pumpkin eater,
  Had a wife and couldn’t keep her.
  He put her in a pumpkin shell
  And there he kept her very well.

- Say the rhyme with the children while showing the appropriate chart.
- Post the chart on the wall at child’s eye level. Observe to see if the children look at the chart and say the words.

**Farmer Digs the Soil**
(Sing to tune of “Here We Go ‘Round the Mulberry Bush” and make appropriate motions)

This is the way the farmer digs,
The farmer digs, the farmer digs.
This is the way the farmer digs,
The farmer digs the soil.

This is the way he plants the seeds,
Plants the seeds, plants the seeds.
This is the way he plants the seeds,
The farmer plants the seeds.
The rain and sun will help them grow,  
Help them grow, help them grow.  
The rain and the sun will help them grow.  
Right up through the ground.  

Now the farmer picks the beans,  
Picks the beans, picks the beans.  
Now the farmer picks the beans  
Now we have beans to eat.

[----------]

Ten Little Seeds  
(Sing to tune of “Ten Little Indians” and hold up appropriate number of fingers 
while counting and singing)

One little, two little, three little seeds,  
Four little, five little, six little seeds,  
Seven little, eight little, nine little seeds,  
Ten little seeds are growing.

[----------]

The Bean Song  
(Sing to tune of “Mary Had a Little Lamb” and make appropriate motions)

Plant, plant, plant the beans  
Plant the beans, plant the beans  
Plant, plant, plant the beans  
Now, let’s watch them grow!  

Water, water, water the beans  
Water the beans, water the beans  
Water, water, water the beans  
Now they’re starting to grow!  

Sunshine, Sunshine shine on the beans  
Shine on the beans, shine on the beans  
Sunshine, Sunshine shine on the beans  
Wow! They’re growing tall!  

Pick, pick, pick the beans  
Pick the beans, pick the beans  
Pick, pick, pick the beans  
Now we have a pot full!  

Cook, cook, cook the beans  
Cook the beans, cook the beans  
Cook, cook, cook the beans  
Now it’s time to eat!  

Eat, eat, eat the beans  
Eat the beans, eat the beans  
Eat, eat, eat the beans  
Yummy, they’re so good!
One Potato, Two Potato
(Hold up appropriate number of fingers while counting)

One potato, two potato,
Three potato, four,
Five potato, six potato,
Seven potato, more.
Eight potato, nine potato,
Where is ten?
No, we must count all over again.

I Eat My Peas with Honey

I eat my peas with honey,
I've done it all my life.
It makes the peas taste funny,
But it keeps them on the knife.

Dig a Little Hole

Dig a little hole.
Plant a little seed.
Pour a little water.
Pull a little weed.

Give a little sunshine,
And what do you know?
Your seed with be a little plant,
And grow, grow, grow.

Carrots, carrots, carrots,
Grow so very slow.
Hurry, hurry, hurry,
And grow, grow, grow!

I Dig, Dig, Dig

I dig, dig, dig, (Pretend to dig)
And I plant some seeds (Stoop down and plant seeds)
I rake, rake, rake, (Pretend to rake)
And I pull some weeds. (Pull up weeds)
I wait and watch (Stoop down and watch ground intently)
And soon I know (Nod head)
My garden sprouts (Raise hands from ground as if sprouting)
And starts to grow.

Benchmarks: 3.5 Understands that print conveys a message
3.7 Identifies letters and signs in the environment

Activity: Seed Book

- Buy five packages of vegetables seeds such as corn, beans, pumpkin, carrots
and cucumbers.

- Use quart-size self-closing clear plastic bags for the pages of the book.
- Open the seed packets, pour each packet into one of the bags. Enclose the seed packet with the seeds.
- Stack the bags with closure edges together. This becomes the spine of the seed book.
- Create a book by either stapling the bags together and covering staples with masking tape, or punching holes in the closure edges and tying with yarn or string.
- Involve children in “reading” the names of the vegetable seeds on each page.
- Place the book in the science/discovery center.
- Add a magnifying glass and encourage children to use it to look at the seeds.

**Benchmarks:**

3.20 Uses senses to learn about the environment and to collect data (scientific process: observing)
3.21 Uses words to describe the characteristics of objects (scientific process: communicating)
3.22 Makes comparisons (scientific process: comparing)

**Activity: Vegetable Garden**

- Plant carrots and onions in a tire garden on the playground, following the directions on the seed packet.
- Place labeled stakes (words and pictures of vegetables) in tire.
- Show children how to water and pull out the weeds.
- Keep a journal of the gardening project. Include photos of the vegetables at various stages. Record the dates on the photos.
- Pull up the vegetables for children to see, feel and smell (onions).
- Involve children in washing the carrots.
- Serve some of the carrots to the children raw and some cooked.

**Activity: Container Vegetable Garden**

- Involve children in preparing a plastic tub or a large flowerpot to use as a container for growing vegetables in the classroom. Place rocks in the bottom of the container. Add potting soil.
- Allow children to help plant seeds in the soil. (you might try carrots, radishes, tomatoes or bell peppers)
- Place a labeled stake (words and pictures of the vegetable) in the container.
- Place the container in a window where the sun shines in.
- Involve children in watering the plant, making sure they do not give it too much water.
- Keep a journal of the gardening project. Include photos of the plant at various stages. Record the dates on the photos. Measure the plant and record in the journal the height each time.

**Activity: Sweet Potato Vines**

- Involve children in placing a sweet potato in water to help them see the growth of roots and leaves.
- Insert toothpicks in spoke fashion around the middle of the potato.
- Place the bottom half of the potato in a plastic jar of water, resting the toothpicks on the top of the jar so that the top half of the potato is above water.
- Place the jar in a lighted area.
- Keep a journal. Take photos as roots and leaves begin to appear. Date the photos.
Activity: Carrot Top Sprouts
- Cut approximately one inch off the tops of several carrots.
- Put cut side down into a small dish of water.
- Watch for the carrot leaves to start growing.

Activity: Feely Bag
- Show children an onion, carrot and cucumber. Have them name the vegetables, discuss their shape and describe how they feel.
- Place the vegetables in a feely bag.
- Invite a child to put his/her hand in the bag, feel the vegetables, select one, name it, talk about how it feels, and pull it out the bag to see if he/she is correct.
- Allow other children a turn.

Activity: Lima Bean Sprouts
- Provide plastic baby food jars, paper towels, and lima bean seeds.
- Involve the children in placing a dampened paper towel inside the baby food jar and placing the lima bean between the folds of the paper towel.
- Place the jar lid on, but don’t screw on too tightly.
- Place the jars on the discovery table and invite to children to observe the beans sprouting.

Teacher Note: Plant the sprouts in a cup, in the tire garden, or send home with a note to families to help their child plant their sprout in a garden spot or container.

Benchmark: 3.14 Demonstrates the ability to order and sequence
Activity: How a Seed Grows Sequencing Cards
- Place the sequencing cards on the science/discovery table. See attachment for the cards.
- Invite children to put the cards in order. Ask questions such as, “What is the first thing you do?” “What do you do next?” Encourage them to discuss what they are doing.

Benchmark: 3.11 Classifies objects conceptually (things that go together)
Activity: Is This a Vegetable?
- Provide pictures of vegetables such as corn, cucumbers, onions, and bell peppers, plus pictures of other food items such as milk, eggs, meat, and cookies.
- Label two pieces of cardstock or construction paper to use as mats for sorting.
- Invite children to sort the pictures by placing all pictures of vegetables on the Vegetable card and the others on Not a Vegetable card.

Benchmark: 3.4 Demonstrates visual discrimination and visual memory skills
Activity: Seed Packet Concentration
- Make four or five pairs of cards of different vegetable seed packets. Cut the fronts off the packets and mount onto card stock or construction paper. Laminate or cover with clear self-stick adhesive for durability
- Turn cards face side up and discuss with children the names of each type of vegetable, calling attention to differences in color, for example.
- Explain to children that they will play seed packet concentration. Turn the cards face down and mix them up.
- Allow each child to turn over two the cards and try to find a match.
- Continue the game, mixing up the cards when it seems that all children can find a match.
- Play as long as children remain interested.

**Activity: Vegetable Concentration**
- Provide two sets of vegetable cards.
- Follow the same steps as for Seed Packet Concentration

**Teacher Note:** Store the cards in a clear plastic self-closing bag and place it on the shelf for children to use independently.

**Teacher Note:** You may need to begin the game by demonstrating turning over one card then another to help children understand how to play.

**Teacher Note:** Remember! There are no winners or losers. The object is to enhance children's visual discrimination and visual memory skills.

**Benchmarks:**
- 1.1 Demonstrates ability to make choices
- 3.5 Understands that print conveys a message
- 3.15 Demonstrates an understanding of number (how many) and numeral (3 is a numeral) relationship
- 4.3 Tries new foods before deciding whether he/she likes them
- 4.4 Recognizes different types of foods

**Activity: Favorite Vegetable Graph**
- Provide a choice of three raw vegetables for tasting (bell pepper, broccoli, cucumber, cauliflower, turnip, for example)
- Prepare a graph with columns for each vegetable. Use a picture or drawing of the vegetable with the word written on it
- Make name cards for each child in a size that will fit on the graph.
- Explain to children that they will taste three different vegetables to determine which they like best.
- Invite each child to put a piece of each vegetable on a plate, taste each one, choose which vegetable is his or her favorite and tape his or her name card in the correct column on the graph.
- Involve the children in counting the number of children who like each vegetable.

<table>

| Benchmarks: 4.1 Identifies body parts and understands their functions | 4.12 Shows balance and coordination |
|---------------------------------------------------------------------|
| **Activity: What Can You Do With a Bean Bag?**                      |
| • Have one bean bag for each child stored in a container such as a basket. |
| • Ask children to hold hands, make a circle, and drop hands.        |
| • Have two children at a time get a bean bag from the container and return to their spot. |
| • Stand in the middle of the circle, participate in the activity, and give directions such as the following to the children: |
|   “Hold the bean bag in one hand.” “Now hold it in the other.” “Hold the bean bag on your head.” |

Adventures in Learning - #7 Things that Grow
Vegetables
“Hold the bean bag on your shoulder.”
“Hold the bean bag on your tummy.”
“Hold the bean bag on your knee.”
“Hold the bean bag on your elbow”
- Invite children to suggest other parts of the body or activities for beanbags.

Activity: Bean Bag Parade
- Prepare for this activity by having the following available: one bean bag per child, a marching song, and a CD or cassette player.
- Help children form a line for marching. Give each child a bean bag.
- Begin by having children hold the bean bag on their head while marching.
- Increase the difficulty as children become more skilled at balancing bean bags. For example, see if children can stand in place without moving as they balance the bean bag on their head. Some children may be able to balance the bean bag on their head while marching.

Teacher Note: Find a way for each child to be successful.

Teacher Note: If you have a bean bag activity CD or tape, use it with the children. An excellent CD or tape to purchase is Bean Bag Activities by Kimbo.

Benchmark: 4.10 Throws, kicks, bounces, and catches

Activity: Bean Bag Toss
- Provide a basket, box or hula-hoop and bean bags.
- Invite children to take turns tossing bean bags into the container or hoop.

Art
- Provide seed catalogs, magazines with pictures of vegetables, and produce ads. Encourage children to create vegetable collages.
- Use leafy part (top) of carrot as a paint brush.

Library/Book Corner
- Add books about vegetables
- Add pictures that show vegetables and vegetables gardens (laminate or cover pictures with self-stick adhesive)
- Post Peter, Peter Pumpkin Eater rhyme chart on wall at child’s eye level
- Add storytelling figures for The Carrot Seed
- Add storytelling figures for Pumpkin Pumpkin
**Benchmarks: 2.1** Shows creativity and imagination in play with materials and props  
**2.2** Participates in dramatic play themes that become more involved and complex

**Home Living/Dramatic Play**
- Create a gardening prop box and add to the center. Include garden gloves, hat or bonnet, apron with pockets, kneepads, watering can, seed packets, seed catalogs, gardening tools, grocery ads that feature produce.
- Add artificial vegetables in a basket or plastic bowl.
- Add gardening magazines and produce ads.
- Add an illustrated recipe for vegetable soup.

**Benchmarks: 3.10** Classifies objects by physical features such as shape or color  
**4.6** Coordinates eye and hand movements to complete tasks

**Manipulatives**  
**Seed Sorting**
- Place containers of seeds (beans, pumpkin, corn, for example) and a muffin tin on the table.
- Invite children to sort the seeds by putting all of the beans in one cup of the tin, all of the pumpkin seeds in one cup of the tin and all of the corn in one cup of the tin.

**Teacher Note:** Provide large tweezers to see if children can use them to sort the seeds.

**Water table or tub**
- Add carrots and potatoes and a soft vegetable brush for children to wash the vegetables.

**Sand table or tub**
- Place deer corn and containers, scoops, funnels and tongs (ice tongs) in the sand table.

**Teacher Note:** Deer corn can be placed outdoors later for animals such as squirrels

**Digging for Worms**
- Pour a small bag of potting soil and plastic fishing words in the sand table or tub.
- Add child-size gardening tools.
- Observe children to see their reaction as they discover the worms.

**Science/Discovery**
- Add sequence cards
- Add seed packet concentration game.

**Quiet Corner**
- Create a quiet corner in your classroom; a place where children can go to be alone and to get away from the stresses of group living.
- Place soft items in the quiet corner. Carpet on the floor, soft pillows, and soft and cuddly stuffed animals or dolls are examples.
- Discuss with children when they might want to go to the quiet corner. When they are angry and need to get away from the source of their anger? When they are sad and need to be alone? When the room gets too noisy and they need a quiet spot?
- Explain to children that the quiet corner is for one child at a time
<table>
<thead>
<tr>
<th><strong>Benchmark:</strong> 3.4 Demonstrates visual discrimination and visual memory skills</th>
</tr>
</thead>
</table>
| **Activity:** Vegetable Match  
- Make multiple sets of vegetable cards (see attachment). Copy the vegetables on cardstock, color and laminate or cover with clear adhesive to preserve.  
- Hold one complete set of the cards, place the other sets in a basket and allow the children to draw a card.  
- Show the children one card and allow all the children holding the same card to choose a center or get their personal belongings and get ready to go home.  |
| **Activity:** Garden Items Match  
- Make multiple sets of garden items cards (see attachment). Copy the garden items on cardstock, color and laminate or cover with clear adhesive to preserve.  
- Hold one complete set of the cards, place the other sets in a basket and allow the children to draw a card.  
- Show the children one card and allow all the children holding the same card to choose a center or get their personal belongings and get ready to go home.  |
| **Family Activities**  
Send home a note to parents stating for the next few days, the children will be learning about vegetables. Suggest some ways families can be involved in the topic of study:  
- Collect and bring to the center pictures of vegetables from sources such as food magazines, seed catalogs, and gardening magazines.  
- Send empty seed packets to the center.  
- Involve their child in planting and growing vegetables at home.  |

*Adventures in Learning - #7 Things that Grow  
Vegetables*
