| Answer:                          |                     | The Price Sheet reflects an average of 10 or 30 hours in a week for one year from a single resource   |               |                     |               |                  |   |      |                  |   |      |              |   |      |               |   |     |               |   |     |                                  |           |  |
| 10.                              |                     | The pricing spreadsheet is not totaling across the individual rows, how should we handle?   |               |                     |               |                  |   |      |                  |   |      |              |   |      |               |   |     |               |   |     |                                  |           |  |
| Answer:                          |                     | The total is calculated as if it were one (1) resource.   |               |                     |               |                  |   |      |                  |   |      |              |   |      |               |   |     |               |   |     |                                  |           |  |

11. Where do we find a/the Voluntary Product Accessibility Template referenced in Section 1.24 B?

Answer: Voluntary Product Accessibility Template is not required.

12. Does the state / EBD intend to act as its own Third Party Administrator for the state PSE/ASE health plan?

Answer: This is not applicable to the vendor's response.

13. Does the state / EBD intend to act replace Arkansas Blue Cross / Health advantage/ Blue Administrators as the Third Party Administrator for the state PSE/ASE health plan?

Answer: This is not applicable to the vendor's response.

Will EBD consider separating the TPA (claims administration) portion of the bid from the benefits administration portion of the bid?

To clarify my questions:

In Section 2, 2.4(G), questions 6, 9, 13, 15, 20, 21, and several others are specific and exclusively used in the administration of self-funded health plans, currently all of which is managed by ABCBS. Many of these tools would be redundant and unnecessary if ABCBS or another TPA manages the plan ASO. If this is not the intent, we will need to modify our software development to Benefit Administration services and claims analysis, benchmarking, wellness optimization and similar services.

14. The information in 2.4(G) is for illustrative purposes only. It reflects modules that are either currently active or have been active in the past. EBD **shall** have the right to add and remove functionality from the ARBenefits system as necessary.
