1. Question: The response states in the Proposed Subcontractors Form on page 6:

***“Do not include additional information relating to subcontractors on this form or as an attachment to this form.”***

Our organization often depends upon subcontractors to broaden our abilities and to perform more robust and comprehensive ecological analyses, is there a possibility to include in our replies to the *Response Packet* our subcontractors' qualifications and experiences for evaluation, or do those not matter?

**Answer:** Subcontractors should also meet minimum qualifications as outlined in section 2.4 of the bid solicitation document. The only information for evaluation needed is listed in the response packet.
