SP-09-0148; HYBRID VEHICLES

1. STATE AGENCY GUIDELINES FOR ORDERING VEHICLES

All vehicles as defined by Arkansas Code Annotated of 1987 at section §22-8-206, will be ordered by the Department of Finance & Administration, Administrative Services. Vehicles not covered by Arkansas Code Annotated of 1987 at section §22-8-206, will be ordered by Ordering Agency after notifying the Office of State Procurement. Agencies are strongly advised to place an order as soon as possible due to restrictions on plant capacity and fleet allocations. Once all orders are filled, you will have to wait for the next opportunity to order.

1.1 ORDERING: A state agency purchase order(s) and all necessary supporting documents will be sent to:

AR Department of Finance and Administration
Office of Administrative Services
P.O. Box 2485
Little Rock, AR 72203

1.2 OPTIONS: Purchasers may select preferred options listed and include the information in their procurement request and cannot add options to vehicle purchases.

2. COOPERATIVE PURCHASING PROGRAM PARTICIPANTS NOTE:

In order to provide the discounted prices offered in this procurement package to both the State and the Cooperative Purchasing Program participants, the vehicle vendors must receive timely payment, payment for partial shipment on multiple vehicle orders, and have all required approvals obtained prior to order placement. All these conditions are being met by state agencies, who are required to have sufficient funds and approvals before orders are placed and to make prompt payment for vehicles as received. It is incumbent upon Cooperative Purchasing participants to have all approvals obtained and funds available to complete the purchasing transaction in a prompt manner. Most of the dealers have fifteen days from the time a vehicle leaves the factory to pay the manufacturers. In order to continue to receive the fleet pricing, you must ensure prompt payment for each vehicle as it is received. All standard and special terms and conditions listed must be equally applied to such participants. Agencies are strongly advised to place an order as soon as possible due to restrictions on plant capacity and fleet allocations. Once all orders are filled, you will have to wait for the next opportunity to order.

2.1 OPTIONS: Purchasers may select preferred options listed and include the information in their procurement request and cannot add options to vehicle purchases.
