

GRAINGER MRO CONTRACT
WSCA CONTRACT #7066
Effective Dates: December 1, 2009 through November 30, 2010

This contract will expedite the purchase and delivery of the majority of industrial MRO supplies while providing substantial commodity and administrative savings. Using the Arkansas Purchase Card, agencies can increase savings in administrative time, billing, and budgeting.

Total Cost of Acquisition: Please consider the concept of “total cost of acquisition” when utilizing this contract. Since Grainger offers next day, freight-free delivery on the majority of MRO supplies, agencies should re-evaluate existing inventory levels and any central warehousing and distribution programs. Grainger assumes this cost and function under this contract.

The contract has been competitively bid and covers all levels of purchases, including those over \$25,000.

Items covered by existing mandatory statewide or agency specific contracts, (Lamps, Ballasts, Air Conditioners, etc.), must be purchased from those contracts and are not to be purchased from the Grainger contract.

Products/Services Included: All industrial supplies, janitorial supplies including cleaning supplies and trash liners. Power tools and hand tools and all other items that may fall into the Industrial Supplies and Equipment Categories. Product Search link: <http://www.grainger.com/Grainger>
