Nationwide,  
more than 5.8 million  
young people-  
about **one in seven**  
teenagers and  
young adults between  
the ages of 16-24  
are neither working  
or in school.

By 2018,  
our forecasts show  
the economy will  
create  
46.8 million jobs.

- Requires Some College
- High School or less

96 percent of chief academic officers at postsecondary institutions are extremely or somewhat **confident in their institutions ability to prepare students for the workforce.**

**Only 11% of business leaders strongly agree that college graduates have the skills needed by employers.**

\* From The Council of State Governments' State Pathways to Prosperity Initiative: Developing Pathways to Ensure a Skilled Workforce for State Prosperity – August 2015

A hand holding a white chalk is crossing out the word "unemployed" written on a green chalkboard. The word is written in a cursive, handwritten style. The hand is positioned at the bottom left of the word, with the chalk tip touching the letter 'u'.

~~unemployed~~

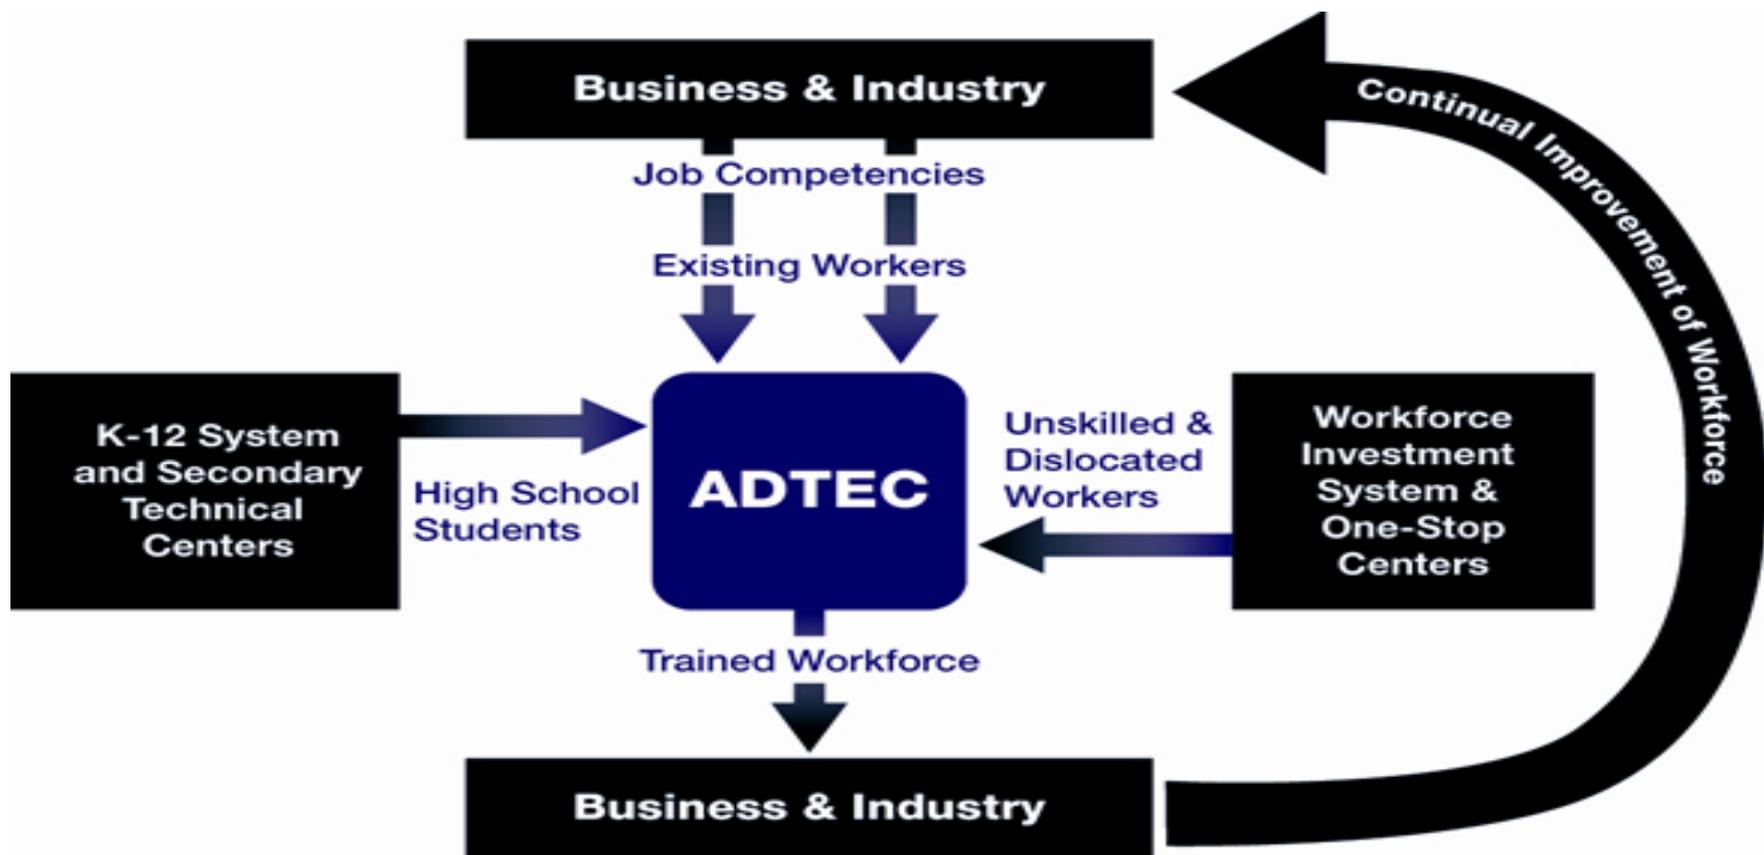

Obtaining a good job, one capable of providing a family-sustaining wage, has become the ultimate standard for educational adequacy.
