CHANGE OF SPECIFICATIONS

Delete Section 2.1 and replace with the following:

2.1 PROSPECTIVE CONTRACTOR QUALIFICATIONS

A. The following qualifications **shall** be met by a Prospective Contractor:

1. Experience with E911 systems and utilizing nationwide best practices to transition to a cost effective, NG911 environment with fully realized regionalization and shared services potential. Note: While the Prospective Contractor must have this knowledge, there is no intent in this request for the respondent to provide NG911 transition services.
2. Be a member of national level organizations with dedication and focus on public safety communications, 9-1-1 technology, operations, and education. (Examples: APCO and/or NENA)
3. Well versed in completing a merging of the wireline network onto the wireless ESInet. Note: While the Prospective Contractor must have this knowledge, there is no intent in this request for the respondent to provide a service to merge the wireline network onto the wireless ESInet.

B. The following qualifications are desirable:

1. It is desirable that the Prospective Contractor (or members of their team who would have responsibility for the project upon award of a contract) has experience in projects such as consolidation of water, water/sewer systems, solid waste systems, school districts, and/or organizational mergers, etc.).
2. A minimum of (5) years of holding regional, statewide workshops with stakeholders across multiple jurisdictions to develop strategic consolidation plans.

The specifications by virtue of this addendum become a permanent addition to the above referenced IFB. Failure to return this signed addendum may result in rejection of your bid response.
