

## **WRITTEN QUESTIONS AND ANSWERS**

### **SP-21-0026 Livestock Bagged Feed**

#### **ANSWERS ARE IN BLUE**

1. Usually magnesium is expressed as a % not PPM, so is this a misprint?

[See Addendum 1 to the IFB.](#)

2. All season mineral has Magnesium listed twice, but once next to the symbol for manganese (Mn).

[See Addendum 1 to the IFB.](#)

3. Is it correct to assume that copper is 1200 ppm not %?

[See Addendum 1 to the IFB.](#)

4. The CTC/IGR version has manganese next to the magnesium Mg symbol listed as PPM and no manganese Mn guarantee?

[See Addendum 1 to the IFB.](#)

5. Iodine is listed twice; do you want 34 or 36 ppm?

[See Addendum 1 to the IFB.](#)
